

Competition Entry System

All competition entries for projected images (DPI) and prints will be made through the online '[PhotoEntry](#)' web based site. (Prints will of course still need to be handed in).

Accessing Photoentry

Before you enter a competition for the first time you will receive the initial automated email (please check your junk email if the email is not found in your inbox).

The automated email you receive will look like this

PhotoEntry

Dear xxxx

You have been registered with the Worthing Camera Club PhotoEntry System. This must now be used for submitting competition entries. It may be accessed using the following information:

URL: <https://compent.photoentry.uk/compent>

User ID: **Generated by the entry system**

Temporary Password: **xxx-xxx-xxx-xxx** enter in lowercase, including the hyphens, if you cut and paste make sure you Paste as plain text)

The above password has been randomly generated. Once you have logged in you will be asked to change it to one of your choice.

Memory sticks are no longer accepted, except by special arrangement with the competition secretary. Your login ID will be generated by PhotoEntry and sent to you using the email address you gave to the club secretary. If you have not received the email or lose your password use the automated password recovery facility on the PhotoEntry login page. If you do not receive an automated email check that your current email address is the one you have given to the club secretary. You can check this by emailing the secretary.

The online entry system will automatically create the mandatory file name format. All you have to do is enter a plain English title using the online system. This applies to both PDI and Print entries. You are required to fill in the print labels and place them on the back of all prints submitted, this information must be the same as the PDI input to the system. If for some reason you cannot use the system and have arranged with the competition secretary to do a manual hand-in you *must* use the mandatory file naming format as set out in the competition rules. Physical prints must have the completed labels on the back of the mount.

Detailed Entry Instructions

How do I submit an entry using PhotoEntry?

All current members of Worthing Camera Club will receive an email sent to their registered email address from our cloud based PhotoEntry system detailing their User id and an initial temporary password enabling them to log in to the Internet to manage their competition entries. (New members will be sent this on receipt of their completed membership applications)

To Login to PhotoEntry use the link below:

<https://compent.photoentry.uk/compent/>

On your first login you will be prompted to change your password to one of your own choosing which you should make a note of it for future use.

Select a Competition Group:

[Annual Competitions - Test](#)

[Competitions 2023-2024](#)

From the Main Menu you will find two choices

Select [Annual Competitions – Test](#) to enable you to practice using the system – You can get used to uploading, deleting and changing images without affecting your competition proper entries.

[Competitions 2023-2024](#) is the Competition Group in which will be added all our competitions for this season for which PDI entries will be required. You can only submit/change/delete entries when the Competition is Open.

If the Status is “Closed” it means the submission date for entries has passed and so will not allow entries to be made. If the Status is “Future” it indicates that the competition will not be opened until some time in the future. All other competitions are “Open” allowing members to enter these competitions well ahead of the date of the competition.

Upon clicking on [Annual Competitions – Test](#) the following screen will appear:
